- OVALIS 01 ceramic with relief structure - fireplace stove
- OVALIS 05 A ceramic - fireplace stove
- OVALIS 05 ceramic - fireplace stove
- SIENA N 01 - tile stove
- SIENA N 02 - tile stove

This fireplace stove is suitable for various types of interiors. The standard version includes the option to connect an upper or rear flue gas exhaust. Thanks to the secondary air intake, the door glass is air-washed to prevent the cumulation of soot. The combustion chamber is lined with chamotte brick tiles. The primary and secondary air intakes are regulated by two control elements. The bottom part of the stove can be used for storing a small amount of wood.
