

HEAT fireplace inserts WITH THREE-SIDED LIFTING DOOR AND SPLIT GLAZING

The clean right-angle geometry of door glazing is the defining feature of the whole design of HEAT fireplace inserts with three-sided glazing and extending doors. The generous glazing means you can experience the play of living flames to the fullest.

HEAT fireplace inserts have large-format printed three-sided glazing that allows you to experience the fire in a unique way. The easy, silent and precise operation of the lifting door is guaranteed by the state-of-the-art SILENT LIFT system. The combustion chamber is lined with heat-resistant bricks named IGNITON and is designed with no furnace grate. However the insert can be fitted with a grate at the customer's request. HEAT fireplace inserts are intended for convection operation. The innovative DOUBLE SPIN flue gas system increases efficiency and reduces the environmental impact of the fireplace insert. Secondary air intake washes over the glass in the door to prevent the cumulation of deposits. Primary and secondary air intake is regulated by a single control element. An EAI (external air intake) system is included. Tertiary air is brought into the combustion chamber to maximise combustion efficiency. Side and top MAMMOTH accumulation sets can be purchased separately for fireplace inserts, which can extend the period of heat radiation by more than 12 hours.

HEAT U 3G L 50.52.70.24

Split glazing - order code: HU3LF 24

Prices on request at your seller

without DOUBLE SPIN system

HEAT U 3G L 50.52.70.24 K1 is version that includes supporting construction (K1 mark). Order code: HU3LF 24 K1. Supporting construction cannot be ordered separately!

Technical parameters

Height 1382 mm
Width 582 mm
Depth 950 mm
Door height 468 mm
Door width 502 mm
Door depth 696 mm
Weight 284 kg
Regulated output 5,0-13,0 k

Regulated output 5,0-13,0 kW
Smoke flue diameter 200 mm
Flue socket diameter 200 mm
External air intake diameter 150 mm
Axis height of rear outlet 1167 mm
Draught 12 Pa
Efficiency 82,7 %
Average wood consumption 2,8 kg/h
