

## VARIANT R/L 03 Design accumulation fireplace with bent corner glazing

Design your own fireplace thanks to the modular system used in the Romotop VARIANT R 03/L 03 corner fireplace. You can choose the orientation of the fireplace, its height and, for instance, the accumulation mass. Everything is up to you...

Indeed, this high quality fireplace is especially suitable for low-energy homes. The modular system allows you to design your own fireplace. An EAI (External Air Intake) system is included. The innovative DOUBLE SPIN flue gas system increases the fireplace's efficiency. The standard version includes the option to connect an upper or rear flue gas exhaust. Thanks to the secondary air intake, the door glass is air-washed to prevent the accumulation of soot. The combustion chamber is lined with chamotte brick tiles. The primary and secondary air intakes are regulated by a single control element. Additionally, you can purchase extra accumulation elements that radiate heat long after the fireplace has gone out.

Bent glazing - right variant - order code: **VARI R 03**

Bent glazing - left variant - order code: **VARI L 03**

### Selected variant

Design fireplace

VARI L 03

Flue pipe - top

## Technical parameters

Height	1092 mm
Width	700 mm
Depth	470 mm
Weight	170 kg
Regulated output	2,9-7,4 kW
Smoke flue diameter	150 mm
External air intake diameter	125 mm
Draught	11 Pa
Efficiency	85,7 %
Minimum room height - safety	171 cm
Minimum room height - for assembly	215 cm
A+
