

ALPERA G01

We are sorry, but this model has been sold out and cancelled from our product range.

Please look at following alternative models:

- EVORA 01 ceramic - fireplace stove
- LAREDO 01 ceramic - fireplace stove
- LUGO N 01 ceramic - fireplace stove

This fireplace stove is suitable for low-energy homes. An EAI (External Air Intake) system is included. The standard version includes the option to connect an upper or rear flue gas exhaust. Thanks to the secondary air intake, the door glass is air-washed to prevent the cumulation of soot. The combustion chamber is lined with chamotte brick tiles. The primary and secondary air intakes are regulated by a single control element. The lower part of the stove includes a storage area with a door for storing a small amount of wood or tools.
