

LUGO 01 A

We are sorry, but this model has been sold out and cancelled from our product range.

Please look at following alternative models:

- LUGANO 01 A ceramic - fireplace stove
- LUGO N 01 A ceramic - fireplace stove

The oval shape of the LUGO A fireplace stove gives the interior a cozy feeling.

Special accumulation elements can be added on the back side and above the combustion chamber. Radiant heating will be prolonged up to **8,5 hours** thanks to the „mass“ of accumulation elements.

- possibility to install accumulation elements on the back side and above the combustion chamber
- high heat radiation capacity thanks to accumulation elements
- long-lasting radiation of heat
- suitable for low-energy houses
- possibility to connect an upper or rear flue gas exhaust
- ready for an external connection of the combustion air intake (EAI)
- preheating of the secondary air to keep the glass clean
- regulation of primary and secondary air intake by a single control element
- closable wood storage for a smaller amount of wood
- select from 30 ceramic color options
- accumulation elements for additional charge
