- EVORA 02 A serpentine - fireplace stove
- LAREDO 02 A serpentine - fireplace stove
- LUGANO 02 A serpentine - fireplace stove
- LUGO N 02 A serpentine - fireplace stove
- OVALIS 02 A serpentine - fireplace stove
- OVALIS G 02 A serpentine - fireplace stove

This fireplace stove is suitable for low-energy homes. Radius glass intensifies the look on flames from different angles. Thanks to the secondary air intake, the door glass is air-washed to prevent the cumulation of soot. The primary and secondary air intakes are regulated by a single control element. The standard version includes the option to connect an upper or rear flue gas exhaust. The combustion chamber is lined with chamotte brick tiles. An EAI (External Air Intake) system is included. Additionally, you can purchase extra accumulation elements that radiate heat for up to 5.5 hours.

order code: **PALEA 02**

Technical parameters

Height	1335 mm
Width	520 mm
Depth	425 mm
