

TALA 06

We are sorry, but this model has been sold out and cancelled from our product range.

Please look at following alternative models:

- TALA N 06 steel - fireplace stove

This fireplace stove is suitable for all types of interiors. The standard version includes the option to connect an upper or rear flue gas exhaust. Thanks to the secondary air intake, the door glass is air-washed to prevent the cumulation of soot. The combustion chamber is lined with chamotte brick tiles. The primary and secondary air intakes are regulated by a single control element. The bottom part of the stove can be used for storing a small amount of wood.
