

IMPRESSION fireplace inserts WITH SIDE OPENING AND DOUBLE STRAIGHT GLAZING

IMPRESSION fireplace inserts with side opening are the perfect choice for all those who love simple and minimalistic design, perfectly combined with top-quality materials.

IMPRESSION fireplace inserts have unusually high glass windows, offering a luxurious view of the fire. Double glazing in the specially rigid profile of the door frame allows these fireplace inserts to be used for accumulation and convection operation. The combustion chamber is available in black or cream colour with an optional change for the furnace grate. The innovative DOUBLE SPIN flue gas system increases efficiency and reduces the environmental impact of the fireplace insert. Secondary air intake washes over the glass in the door to prevent the cumulation of deposits. Primary and secondary air intake is regulated by a single control element. Fireplace inserts are equipped with a EAI (external air intake) system, which can be easily connected using the AIRBOX rotating elbow. The flue gas exhaust can be connected from the side or the top. Side and top MAMMOTH accumulation sets can be purchased separately for fireplace inserts, which can extend the period of heat radiation by more than 12 hours.

IMPRESSION 2g 67.60.01

Prices on request at your seller
order code: **I2G 01**

double glazing on the doors ensures heat comfort in low-energy houses
maximum of 4 side accumulation sets

the combustion chamber is optional (crema or black) and needs be ordered separately!

Technical parameters
