

NAVIA is a fireplace stove with a large combustion chamber designed to pique the interest of everyone - not only through its appearance, but first and foremost thanks to its excellent combustion.

NAVIA G Fireplace stoves

A generous combustion chamber with high quality designer components and precise, clean lines. NAVIA G fireplace stoves are designed to seamlessly integrate into your home. design printed glazing

This fireplace stove is suitable for low-energy homes. The stove door includes a large glazed area with a designer print. An EAI (External Air Intake) system is included. Designer control elements made of polished metal. The door can be locked in the open position. The standard version includes the option to connect an upper or rear flue gas exhaust. Thanks to the secondary air intake, the door glass is air-washed to prevent accumulation of soot. The combustion chamber is lined with chamotte brick tiles. The primary and secondary air intakes are regulated by a single control element.
