

A spacious furnace and large-format glazing make the RIANO N fireplace stove the perfect addition to any interior. The exquisite combination of small details with its robust frame ensure that RIANO N stoves will stand out in every situation.

RIANO Fireplace stoves

The RIANO fireplace stove is for those who love a prominent and clear-cut design.

This fireplace stove is suitable for various types of interiors. The standard version includes the option to connect an upper or rear flue gas exhaust. Thanks to the secondary air intake, the door glass is air-washed to prevent the cumulation of soot. The combustion chamber is lined with chamotte brick tiles. The primary and secondary air intakes are regulated by a single control element. The bottom part of the stove can be used for storing a small amount of wood.
