

A spacious furnace and large-format glazing make the RIANO N fireplace stove the perfect addition to any interior. The exquisite combination of small details with its robust frame ensure that RIANO N stoves will stand out in every situation.

## RIANO N Fireplace stoves

**Elegance and minimalism. These words precisely capture the essence of the RIANO N fireplace stove. Its wide combustion chamber with a full-glass door offers ample heat and a beautiful view of the flames.**

This fireplace stove is the perfect fit for modern interiors in particular. The stove door includes a large glazed area with a designer print. An EAI (External Air Intake) system is included. The standard version includes the option to connect an upper or rear flue gas exhaust. Thanks to the secondary air intake, the door glass is air-washed to prevent the cumulation of soot. The combustion chamber is lined with chamotte brick tiles. The primary and secondary air intakes are regulated by a single control element. The bottom part of the stove can be used for storing a small amount of wood.
